* Note: A securities rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time.

The term “Treasury Rate” shall have the meaning ascribed to it in the issuer’s preliminary prospectus supplement dated February 2, 2023.

Concurrently with this offering, we are also offering \$800,000,000 aggregate principal amount of Medium-Term Notes, Series D (the “other securities”), pursuant to a separate prospectus supplement and separate pricing supplements. Although we expect that the sales of the bonds offered hereby and the other securities will take place concurrently, the sales are not conditioned upon each other, and we may consummate the sale of one or more issues and not the other(s), or consummate the sales at different times.

It is expected that delivery of the bonds will be made against payment therefor on or about February 9, 2023 which is the fifth trading day following the date hereof (such settlement cycle being referred to as T+5). Purchasers of bonds should note that the ability to settle secondary market trades of the bonds effected on the date of pricing or the next two succeeding business days may be affected by the T+5 settlement. Accordingly, purchasers who wish to trade the bonds on the date of pricing or the next two succeeding business days will be required to specify an alternative settlement cycle at the time of any such trade to prevent a failed settlement and should consult their own legal advisors.
